Castro Denies Gift to Governor

HAVANA, March 4 (UPI)—Fidel Castro said today New York's Gov. Nelson Rockefeller is mistaken if he thinks Castro sent him the cigars delivered by an American pilot recently released from a Cuban hospital.

The doctor who treated pilot Trevor Burns of Syracuse, N.Y., is a good doctor but not his personal doctor, Castro emphasized. The doctor had given Burns a box of cigars for Rockefeller and represented it as a gift from Castro.

"I haven't sent any cigars to Rockefeller," Castro declared.
